PCA Welcomes Senior Associate Art Richards

Duluth, GA – June 2017: Performance Consulting Associates, Inc. announces the addition of Art Richards as a Senior Associate for PCA. Art will be conducting assessments and managing client continuous improvement projects and will be a great asset to the company.

Art is very familiar with PCA and its methodologies and business process model for Asset Reliability, as he engaged PCA at various times and companies throughout his career.

Art Richards has over 30 years of experience in manufacturing and business across a wide range of leadership roles for Johns Manville, St. Gobain and Owens Corning. He recently served as Global Operations Leader for Owens Corning based in Concord, NC. Prior to serving in the Global Operations role, Art was Global Total Productive Maintenance (TPM) Deployment Leader implementing Planned and Autonomous Maintenance Pillar projects for Owens Corning's Composites Division. Among his accomplishments, he is TPM certified by Productivity Inc. and the Ohio State University, and Lean certified by the University of Michigan.

For more information on Art's background and experience, please visit Art's LinkedIn page. His email is richards@pcaconsulting.com.

Performance Consulting Associates, Inc. is based in Duluth, GA and has been delivering Engineering and Consulting services for Asset intensive industries and companies for over 40 years; focusing on Maintenance Management, Reliability and MRO Materials.
